Ante Anić, Split, Croatia

## **14:15-16:45, Session 1. Another mapping system/diagnostic catheter helped us**

1. Gabor Szeplaki, Dublin, Ireland: **Using AI to map unstable reentries.**
2. Damijan Vokač, Maribor, Slovenia: **Merging CT angio and 4D intracardiac echoardiography for papillary muscle PVC ablation.**
3. Borka Pezzo Nikolić, Zagreb, Croatia: **Using non-contact multipolar mapping for PAC ablation**

16:45-17:00 Coffee break

## **17:00-20:00, Session 2 . Another energy source helped us**

1. Robert Bernat, Kaiserslautern, Germany: **Near critical nitrogen cryo ablation for ventricular tachycardia**
2. Ante Lisičić, Zagreb, Croatia: **LOM alcohol ablation for persistent AF**
3. Petr Peichl, Prague, Czech Republic: **Stereotactic radioablation for refractory ventricular tachycardia**
4. Toni Brešković, Split, Croatia: **Puled field ablation for epicardial accessory pathways**

## **Saturday, September 7th, 09:00-17:00**

### **09:00-11:45 , Session 3. Another approach/maneuver helped us**

1. Boris Schmidt, Frankfurt, Germany: **Transseptal approach for LV summit PVC ablation.**
2. Armin Luik, Leverkusen, Germany: **Focal PFA through the CS tributaries for epicardial VT ablation**
3. Dragos Cozma, Timisoara, Romania: **Ablating accessory pathways away from the AV annulus.**
